Stride Sports

Product Warranty Policy

What the Warranty Covers

All products sold by Stride Sports are covered against manufacturing defects in materials and workmanship. A manufacturing defect is a fault that exists when the product leaves the factory, such as a sole separating from the upper, a seam coming apart under normal use, or a zipper that fails.

Warranty Periods

Footwear is covered for 6 months from the date of purchase. Apparel, socks and bags are covered for 90 days. Hydration vests and water bottles are covered for 1 year. GPS watches, heart rate monitors and other electronics are covered for 2 years, including the battery for the first 12 months.

Products bought from the Outlet section carry the same warranty as full-price items.

What the Warranty Does Not Cover

The warranty does not cover normal wear and tear, such as worn-down outsoles, faded colors or pilling of fabric. Running shoes that have been used for more than 800 km are considered worn out. Damage caused by accidents, improper washing, drying on a radiator, or modifications is also not covered.

Water damage to electronics is only covered if the product was used within its stated water resistance rating. Scratches on watch screens are considered cosmetic and are not covered.

How to Make a Warranty Claim

Contact our support team with your order number, a short description of the problem and clear photos showing the defect. Our product specialists review claims within 3 business days. If the claim is approved we send you a prepaid label so you can return the faulty item free of charge.

Repair, Replacement or Refund

Depending on the product and the fault, we will repair the item, replace it with the same product, or, if the product is no longer available, offer a similar product or a full refund. Replacement items carry the remaining part of the original warranty period, or 90 days, whichever is longer.

Manufacturer Warranties

Some brands, including PacerPro electronics, offer their own manufacturer warranty in addition to ours. You may claim under either warranty. Our support team can help you contact the manufacturer directly.
